

OUR MODEL

Facilitated Growth is a New York based business and management consultancy created to provide assistance for companies and entrepreneurs that deserve an opportunity to succeed. FG has an established track record of building support systems for businesses as they navigate through the difficulties associated with growth.

At the Company's core, FG is a consulting team committed to helping expansion focused entities through the various phases of the business cycle. Through our diverse offering of services, a focus on teamwork, transparency, and communication; FG equips clients with the structure and attractiveness needed to acquire advancement-based support through high quality, low cost solutions.

Facilitated Growth understands each phase of the business life cycle. Our team has experience that includes assisting high-achieving start-ups shift from pre to post revenue, negotiating investment banking deals, domestic and international M & A activity, buyouts, and public listings. Our platform and guidance have proven to help clients through the subsequent growth phases by providing value added services and synergistic contacts amongst our clients, member companies, and partners.

As a company founded by successful entrepreneurs we are inherently value seekers. Since inception, FG has contributed proprietary funds to the best companies that have engaged our consulting services. Our partners use the consultancy as a vessel for identifying the most innovative companies and strongest entrepreneurs at the earliest stages of development. The end result is synergized operations which align our services with proprietary funds and subsequent success.

FEATURED CLIENTS

At Facilitated Growth we take pride in each of our projects. Below is an outline of our flagship clients and a brief description of our assistance through the critical points of their growth.

Superior Ostrich (www.superiostroich.com)
Superior Ostrich is believed to be the largest commercial grower, operator and producer of ostrich livestock in the Western Hemisphere. FG tailored Superior's business plan and value proposition, identified key channels of funding, assembled a dynamic, talented, and experienced B.O.D.s, and provided direct assistance, both with accounting/bookkeeping support and key marketing initiatives.

Epica International Inc. (www.epicamed.com)
Epica is dedicated to delivering revolutionary medical equipment to veterinary markets worldwide. FG has helped Epica identify early stage capital opportunities. Epica also used FG's services to complete a comprehensive merger with their Italian R & D and Manufacturing Partners.

Phoenix Financial Services (www.phoenixinc.com)
Phoenix Financial Services is a full service financial services company located on Wall Street. Phoenix Financial Services was formed to provide a high level of personalized service, which has been lacking at the big "supermarket" financial firms. Phoenix's representatives are fully equipped to help through the multitude of financial questions that may come up on a day to day basis. Phoenix is designed to be able to provide you with all of your financial services including: financial advice, retirement planning, and financial product analyses.

B2B Networkx (www.b2bnetworx.com)
B2B Networkx is an integrated marketing firm that offers SEO work, advanced design work, and contemporary multimedia concepts. B2B Networkx has developed cost-effective strategies to help their clients in today's evolving business climate.

PRD International (www.polaroidusa.com)
PRD International is a licensee of the Polaroid brand. They are a provider of video surveillance systems that have been developing innovative security solutions for their clients for over 40 years.

Fatsack Outdoors Inc. (www.fatsackoutdoors.com)
Fatsack Outdoors Inc. is committed to keeping the age-old, outdoor traditions alive by leveraging the latest in technology to provide consumers with an enhanced and simplified sporting experience for not only the casual weekender but for the professional as well. FG assisted Fatsack Outdoors by providing to them a business plan, financial statements, projected financials, corporate restructuring, continual marketing and operations advice as well as a strategic board member.

Our member companies benefit from entrance into our network of like-minded entrepreneurs whom subscribe to the same principles as Facilitated Growth. Open communication is an important staple of any strong business. When the situation calls for collaboration or an opportunity for cost synergy presents itself, our clients, companies, and partners have a proven track record of working with one another to achieve common goals. The process ultimately results in member companies that recognize different skill sets and subscribe to the same "team" mentality that FG portrays.
