

PORTFOLIO

 **FACILITATED GROWTH** | Office: 718.423.2640 | www.facilitatedgrowth.com

At Facilitated Growth LLC ("FG") we take pride in each one of our projects. The nature of our clients is such that each project requires a unique suite of consulting solutions. Below is an outline of who our clients are and how we have helped guide them through critical points in their growth.

Superior Ostrich, Inc. (www.superiorostrich.com)

- Superior Ostrich is believed to be the largest commercial grower, operator and producer of ostrich livestock in the Western Hemisphere. Superior's operations are dedicated to the production of ostrich meat products appealing to the health, nutritional and dietary conscious consuming public seeking "red meat" alternatives.
- FG has headed the transformation of Superior Ostrich from a business that involved the design, fabrication, and sale of western footwear to providing a sustainable alternative red meat to the world.
- FG tailored Superior's business plan and value proposition, identified key channels of funding, assembled a dynamic, talented, and experienced board of directors, and provided direct assistance, both with accounting/bookkeeping support and key marketing initiatives.

Epica Medical Innovations (www.epicamed.com)

- Epica Medical Innovations is dedicated to delivering revolutionary medical equipment to veterinary markets worldwide; in a manner that makes care safer, more accurate, and cost effective.
- FG provided Epica with their initial startup capital. We then helped Epica identify additional early stage capital. FG was intricate in helping Epica vertically integrate in both the R & D and the manufacturing space through a merger.
- In addition to helping Epica benefit from M & A activity and identifying additional channels, FG assists Epica with Investor Relations and Accounting services on a continual basis.
- The current strategic plan projects Epica to penetrate the human markets and register the company for a public listing.

Phoenix Investment Services (www.phoenixinc.com)

- Phoenix Financial Services is a full service broker-dealer located in the heart of the financial district in New York City.
- FG helped design and execute a dynamic marketing campaign in order to build an image and increase the firm's customer reach.
- In 2012 FG contributed a portion of the initial startup costs. Today, Phoenix is a growing Broker-Dealer with numerous locations and a dynamic presence on Wall Street.
